

Material Safety Data Sheet

Section 1. Product and Company Identification

Product Name: Frozen Tissue Section, Panel and Array

Catalog Number:

Manufacturer:

Contact: PH: 1-800-475-2812,F: 240-363-0739,info@capitalbiosciences.com,www.capitalbiosciences.com

Validation Date: 05/29/2003

MSDS#

Component/Item (and Parts number if listed)

Frozen tissue section and glass slide

Section 2. Composition and Information on Hazardous (OSHA) Ingredients

Frozen tissue sections are considered bio-hazardous and may contain unidentified contagious material.

Section 3. Hazards Identification

Primary Routes of Entry:

Skin Absorption (**No**); Dermal/skin contact (**Yes**); Eye contact (**Yes**); Inhalation (**No**); Ingestion (**Yes**); Chronic Exposure (**No**).

Medical Conditions Aggravated by Exposure: Not available.

Potential Health Effects: Potential bacterial or viral infection.

Section 4. First Aid Measures

Skin contact: Promptly remove contamination and thoroughly wash affected areas with large amounts of water with 2% bleach for at least 15 minutes.

Eye contact: Immediately flush eyes with large amounts of water with lids lifted, for no less than 15-20 minutes.

Ingestion: Induce vomiting and get immediate medical attention.

Section 5. Fire Fighting Measures

Special Fire Fighting: Not Flammable.

Section 6. Accidental Release Measures

If released or spilled, wash area thoroughly as infectious material.

Section 7. Handling and Storage

See User's Manual for storage information. Handling and use as infectious material. Work under fume hood. Protect workers and environment. Store product in a safe place. Avoid unauthorized access.

Section 8. Exposure Controls and Personal Protection

Effects of Overexposure: N/A

Respiratory Protection: Wear masks while handling sample.

Ventilation: General ventilation. Fume hoods should maintain a minimum face velocity of 100 fpm.

Protective Glove: General lab safe impermeable gloves

Eye Protection: Wear splash goggles or full-face shield. Keep eyewash station in working order.

Handling and Storage: Wear appropriate protective clothing and avoid using sharp material such as needle, blade or broken glasses. Store in cold.

Environment Protection: Treat all lab supplies that have contaminated with product with 2% bleach for 30 minutes, then autoclave for reusing or through away as biohazards.

Section 9. Physical and Chemical Properties

Appearance: Glass slide.

Section 10. Stability and Reactivity

Stability and Reactivity: Stable at frozen temperature under normal storage conditions.

Section 11. Toxicological Information

N/A

Section 12. Ecological Information

The product itself and its products of degradation are not toxic.

Section 13. Disposal Considerations

Waste Disposal: Disposal any waste generated by working with this product as biohazards, such as gel running buffer, column washing or elute buffer, pipette tip, tubes, bench dapper or Kimwipe. 1) Treat waste with 2% bleach for 30 minutes; 2) autoclave; 3) through away as biohazards material. Please consult local, state and federal regulation on additional guidance on disposal.

Section 14. Transport Information

Contact CBI for all transport information.

Section 15. Regulatory Information

N/A.

Section 16. Other Information

Validated by CBI Administration on 06/29/2003. Verified by CBI Administration and Printed on 07/6/2003.

Notice to Reader

The information contained in this MSDS was obtained from sources we believe are reliable. However, the above information is provided without warranty, expressed or implied, regarding its correctness. CBI makes no guarantee of the accuracy or completeness of the data and shall not be liable for any damages thereto. The data are offered solely for your consideration, investigation, and verification. These suggestions should not be confused with either state, municipal, or insurance requirements, or with national safety codes and constitute no warranty. The conditions or methods if handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist. Any use of these data and information must be determined by the user to be in accordance with applicable federal, state, and local regulations.

N/A - Not applicable or no information available.
